

PRASANNA VIJAYAKUMAR

Aspiring Software Engineer & AI Innovator | DSA | Python | IoT |
Building Intelligent Technologies for Real-World Impact

@prasannaavijayakumar2006@gmail.com

prasanna.tech

EDUCATION

B-Tech Computer Science Engineering

Amrita Vishwa Vidyapeetham

04/2024 - 04/2028 Chennai, India

CGPA

8.1 / 10.0

PROJECTS

Map My Destination

<https://map-my-destination.onrender.com/>

- Designed and implemented a tour planning system using Graph and the Breadth-First Search (BFS) Algorithm to determine optimal travel paths
- Applied core principles of Data Structures and Algorithms to solve a complex pathfinding problem in a course-related context

FIND ME ONLINE

KEY ACHIEVEMENTS

Increased Web Traffic

Increased website traffic by 30% within six months using data-driven SEO strategies.

Enhanced Algorithm Performance

Implemented data algorithms, boosting processing speed by 40% in critical applications.

Improved Team Efficiency

Managed a team of 5, improving project efficiency by 25% through strategic planning.

SUMMARY

A strong foundation in computer science and hands-on experience with algorithms, project-based problem solving, and data analysis is demonstrated. Enthusiasm for leveraging technical skills to develop impactful solutions is reflected, along with a commitment to continuous learning in AI and data science. A readiness to contribute to objectives that drive meaningful change in technology and community engagement is clearly expressed.

SKILLS

FrameWorks

Pandas

NumPy

Scikit-Learn

Matplotlib

Tools

Power BI

Excel

PowerPoint

Tableau

MySQL

SQLite

Platforms

PyCharm

Jupyter Notebook

VS Code

Antigravity

Soft Skills

Report Building

People Management

Excellent Communication
